Art Unit: 1634

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4 and 6-15 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. This rejection is repeated for reasons already of record (*e.g.*, Office action mailed March 16, 2006, pages 2-4). Applicants' arguments (response filed July 17, 2006, pages 2-6) are not convincing. Applicants repeatedly assert that the claimed invention meets 35 U.S.C. § 101 because it is known that SEQ ID NO: 2 encodes 60S Ribosomal Protein L10. It is reiterated here that this is not at issue here (*e.g.*, see the Office action mailed March 16, 2006, page 4, second full paragraph). Applicants' assertion that merely knowing that a given sequence encodes a known polypeptide is sufficient to satisfy 35 U.S.C. § 101 is not convincing. It is not seen how or where *In re Fischer* (76 USPQ2d 1225 (Fed. Cir 2005)) creates a *per se* rule that establishes knowledge of a given sequence encoding a known polypeptide to be sufficient to meet the utility requirement under 35 U.S.C. § 101.

Claims 1-4 and 6-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. This rejection is repeated for reasons already of record (*e.g.*, Office action mailed March 16, 2006, page 4, last paragraph). The discussion under the rejection under 35 U.S.C. § 101 is incorporated here. Since the claimed invention lacks utility under 35 U.S.C. § 101, the instant application does not teach how to use the invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing

date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
